Naples, Sept. 24.

NOtwithstanding all the care our Viceroy takes to suppress the Banditi, their number increases, so that this Kingdom is greatly infested with them. Two Companies of Foot newly raised at *Otranto*, are come hither, which with others, are designed for the State of *Milan*.

Warsaw, Septemb. 25. We are at present very quiet in these parts, and according to all appearance are like to continue so: It was indeed the general discourse for several months past, that this Crown was going to enter into a War in Conjunction with the Moscovites against the Turks; and there was then ground enough for it, considering the Negotiations that were on foot for the making a League Offensive and Defensive between this Crown and the Czar of *Moscovy*; but at present the Dispositions seem very much altered, and are become very averse to the War, occasioned by a belief that the Moscovites would not be sincere in it, but that they would make their own Advantages at our Expence, as well as by the backwardness of the Princes (our King sends his Ambassadors to) to give their Assistance for the carrying on of the War.

Genoua, Octob. 9. The third Instant arrived here the *Palestine*, Capt. *Salmon*, the *Exchange* Capt. *Martin*, from *Scandaroon*; the *Unity* Capt. *Kecber*, and the *Lusitania*, Capt. *Warner* from *Zant*, and the ..... Capt. *Groves* from *Naples*.

Madrid, Octob. 4. The Bankers here have been agreed with to remit 500000 Crowns to *Flanders*, of which, 100000 are to be paid to the Prince of *Parma* before the end of *December*, and the rest in the four following Months. The Galeons will part from *Cadiz* the latter end of this month, or the middle of the next at farthest. The Count *d' Estrees* continuing in the *West-Indies*, does somewhat disturb this Court, not knowing what his Designs may be. Since the latter end of *August* we have had here such abundance of Rain, accompanied with Thunder, Lightning, and violent storms of Wind, that it is not to be expressed, and particularly this day sevennight, it rained so very violently for three or four hours, that the Water ran down the Streets as a River, and did much harm, several Persons being drowned, and a House of Pleasure belonging to the Countess of *Ognate*, being in a manner swept away by the violence of the Current. From *Gallicia* they write of some differences they had with the Portuguese.

Stockholme, Octob. 9. The States of this Kingdom are to meet here the 11th Instant, after which, the Queen will make her publique Entry into this place. We hear no more of the Allyance which was said to be Treating between this Crown and *France*. Mr. *Warwick*, Envoye Extraordinary from the King of *England* is arrived here.

Linitz, Octob. 14. The 9th Instant, the Commissioners appointed for the Tryal of the Count de *Zinzendorf*, late President of the Chamber of the Revenues, met at the House of Count *Nostitz*, and there pronounced the Sentence they had concluded against the said Count *Zinzendorf*; which was, that for several Misdemeanors breach of Trust, and evil Administration, he should pay to the Emperor 197000 Gilders, that he be deprived of all publique Employments, and that he retire to some place, such as the Emperor shall assign, and live privately there. The Emperor purposes to remain here this winter; but the Empress Dowager and the Queen of *Poland* will part the 22 Instant for *Vienna*. The Prince of *Baden*, who was sent by the Emperor to the Electors and other Princes of the Empire, to confer with them concerning the present state of Affairs, is returned, and has made his Report to his Imperial Majesty. We are told that a considerable sum of Money is sent to *Hungary*, for the payment of the Imperial Troops, which for want of it began to be somewhat disorderly.

Ratisbonne, Octob. 14. The Duke of *Wurtemberg* has by a Memorial acquainted the States assembled here, that he has been summoned by the Parliament of *Besanzon*, to do Homage to the French King for his Principality of *Monpelgart*, and that in default thereof, he is threatened with Military Execution, and therefore desires that the Emperor and the Dyet will take care to Protect him, or else, that they will not take it amiss if he be forced, to prevent the Ruine of his Countrey, to comply with what the French require of him. We do not yet hear that the Dyet has taken any Resolution in a Matter of this importance.

Hamburg, Octob. 22. Our Magistrates do not now permit any Letters to be brought hither from *Leipzick*, where, we are told, the Plague rages with greater violence than ever, there dying Fifty Persons in a day. Yesterday was published a Placaet, forbidding the bringing hither any Cloth, Linnen, or Thred from *Leipzick* or *Silesia*, though they should be accompanied with Letters of Health; and such as shall be taken within the Jurisdiction of this City, it's ordered, shall be immediately burnt. Count *Thun*, Envoy Extraordinary from the Emperour to the King of *England*, is past this place on his way thither. The States of the Dutchy of *Hanover* are going to meet, in order to their doing Homage to their new Duke. The Prince of *Orange* is expected again at *Zell*, in his return to *Holland*.

Cologne, Octob. 22. The Commonalty of this City is now Assembled, and demand an Account from the Magistrates, of certain sums of Money that have passed through their hands, which its feared, may occasion some disorder. From *Coblentz* we have an Account, that the Bishop of *Strasburg* arrived there on Saturday last, and that he parted again the next day for *Strasburg*, where its said, he intends to make some stay, to settle the affairs of his Dioceſs
